## PROFESSIONAL SUMMARY

Computer Science undergraduate student at Metropolitan State University of Denver with practical experience building software tools and SaaS applications. Proficient in Python, web development fundamentals, and relational database concepts, complemented by rigorous coursework in computer organization and algorithms. Proven ability to prioritize tasks, communicate effectively, and execute under pressure developed through high-volume operations and service roles.

## TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL, HTML5, CSS3
- **Developer Tools & Environments:** Git, GitHub, Linux/Unix CLI, Bash/Shell, VS Code
- **Core Concepts:** Full-Stack Web Development, Relational Database Design, Object-Oriented Programming (OOP), Algorithms & Data Structures, Computer Systems & Organization, RESTful APIs

## EDUCATION

### Metropolitan State University of Denver — Denver, CO

Bachelor of Science in Computer Science | Expected Graduation: [ Dec 1, 2030 ]

- **Relevant Coursework:** Algorithms & Computational Thinking, Computer Organization, Programming Fundamentals, Boolean Algebra & Digital Logic, Computer Science Principles

## TECHNICAL PROJECTS

### Self-Assigned Project Tracker (SaaS Application) | Python, JavaScript, HTML5, CSS3, SQL, Git

Personal Project | GitHub Repository

- **Full-Stack SaaS Architecture:** Designing and building a centralized productivity application enabling students to track coursework, manage schedules, and organize deliverables as part of ongoing coursework.
- **Database Design:** Learning to model normalized SQL relational database schemas to efficiently query enrollments, course structures, and deadlines.

- **Front-End & UX:** Developing interactive responsive user interfaces and workflows to help users prioritize urgent academic tasks.
- **Backend & Security:** Implementing RESTful CRUD APIs, secure user authentication, and structured state management using Python and JavaScript.
- **Version Control:** Practicing deployment workflows and version control management using Git, multi-branch strategies, and issue tracking.

## Full-Stack Web Development Track | JavaScript, HTML5, CSS3, Git, Command Line

The Odin Project | [<https://github.com/moltinglocust/theodinproject>]

- **Full-Stack Curriculum:** Actively working through comprehensive coursework focusing on software design patterns, OOP principles, and clean code architecture.
- **Modular Development:** Engineering reusable, responsive web components utilizing modern CSS Grid/Flexbox and vanilla JavaScript DOM manipulation.
- **DevOps & Tools:** Learning to manage local development and build pipelines via Linux/Unix CLI and deploying code directly to GitHub.

## WORK EXPERIENCE

### Front Range Services (Denver Union Station) — Denver, CO

Facilities & Station Services Specialist | 2026 – Present

- **Operations Management:** Oversee facilities, equipment, and public infrastructure in a high-volume transportation hub serving thousands of daily patrons.
- **Problem Solving & Triage:** Rapidly evaluate operational bottlenecks and execute safety protocols under high-pressure, time-sensitive conditions.
- **Time Management:** Balance full-time work shifts with full-time computer science coursework and continuous technical project development.

### Kody's Restaurant & Bar — Port Aransas, TX

Lead Server |

- Handled dining room sections in a fast-paced environment, balancing 15+ concurrent customer requests with speed and accuracy.
- Facilitated communication between front-of-house teams and kitchen staff to streamline order processing and reduce wait times.
- De-escalated customer service bottlenecks promptly, maintaining high guest satisfaction ratings.

### Cheddar's Scratch Kitchen — San Angelo, TX

Server |

- Delivered full-service hospitality in a high-volume restaurant setting while adhering to stringent service standards.
- Collaborated with cross-functional service teams to optimize shift coverage and table turnover rates.
- Built strong foundational skills in interpersonal communication, multi-tasking, and conflict resolution.
